

IGNACIO BUSTAMANTE

EXPERT CONSULTANT

Summary

With nearly two decades of dedicated experience in the medical laboratory field, Ignacio has built a robust career as a Clinical Laboratory Scientist. Known for his subject matter expertise in transfusion medicine, Ignacio has made significant contributions to the field, ensuring the highest standards of patient care and safety.

During his extensive career, he has honed his skills in various aspects of clinical laboratory science. His deep understanding of transfusion medicine encompasses immunohematology, donor collection and manufacturing, stem cell collection and processing, patient blood management, electronic medical record (EMR) orders, and the effective management of blood products. His expertise has been pivotal in developing protocols and procedures that ensure safe and efficient transfusion practices, implementing process improvement protocols, and innovative solutions.

Ignacio's extensive experience, specialized knowledge in transfusion medicine, leadership and management skills, and dedication to teaching make him a valuable consultant, instructor, assessor, auditor, and subject matter expert to any healthcare system, higher education institution, clinical laboratory, and research facility. His commitment to excellence, combined with his technical skills and regulatory expertise, ensures the delivery of superior healthcare and laboratory services contributing to increased productivity and patient safety.

Highlights

- Subject Matter Expert in Transfusion Medicine.
