

RON RODRIGO

EXPERT CONSULTANT

Summary

Ron is a seasoned anatomic pathology leader with over 20 years of experience in anatomic pathology and more than 10 years of experience in anatomic pathology management.

Ron's expertise extends to various aspects of laboratory operation, including creating staffing models and conducting CAP & CLIA inspections. He profoundly understands histology and cytology procedures, such as IHC, special stains, immunofluorescence, electron microscopy, processing muscle for enzyme studies, and gyn and non-gyn specimens. His background also includes processing Mohs surgical specimens for frozen sections and specimen troubleshooting.

Ron's management decisions are firmly rooted in data, ensuring the most effective strategies are implemented. He is dedicated to creating an environment where employees are encouraged to grow, collaborate, and produce quality work, all with the aim of enhancing patient care and satisfaction.

His commitment to fostering creativity and collaboration among team members is a testament to his dedication to continuous workflow and efficiency improvement.
